

active8™

**Safe, Unique
Kills
Disinfects
& Cleans
all in one application**

Activ8 offers powerful cleaning and protection in a single non-toxic, environmentally safe product - suitable for medical, commercial, or household use.

Kills

- **Kills 99.999999% of all micro-organisms**
Incl. MRSA, Clostridium Difficile, Superbugs, Avian Flu, SARS, and other pandemics in public places.
- **Irreversibly** binding, penetrating and immobilising bacteria, viruses, fungi & spores
- **Dismantles** the microbial DNA so that they **cannot replicate**
- Providing **powerful infection control** for clinical environments such as hospitals, clinics, dental surgeries and nursing homes

Disinfects & Cleans

- Activ8 leaves surfaces **clean, disinfected** and **safe** to use for up to **30 hours**.
- Powerful **cleaning and disinfecting properties** make it ideal for use on all transport and public places, especially any environment where good hygiene is important - from educational facilities, leisure centres, offices and supermarkets to catering/food preparation areas, hotels, airports, aircraft, cruise ships and oil rigs.

Safe

- **Non-toxic** - to humans and animals
- **No bleach** - safe on surfaces/fabrics
- Non-flammable, non-irritant, non-corrosive
- Surfaces are left **safe** and hygienically clean
- **Environmentally** safe
- Extensive support, testing and trial data available
