The Company will ensure to the best of our ability that every aspect of our activities is conducted in accordance with sound environmental practices.

The Company will achieve this by:

- Minimising the consumption of natural resources and energy, whilst consuming material goods in moderation.
- Reducing the creation of waste by the adoption of improved operating practices and by the recycling of materials wherever practical.
- Ensuring all waste and effluent is disposed of in a safe and responsible manner.
- Investing in the development of new products and processes that have an improved performance regarding impact on the environment.
- Compliance with environmental legislation.

The Company aims to foster among its staff, suppliers, customers and local communities an understanding of environmental issues in the context of its business. Our collective task is to ensure that we continually improve the environmental impact of our total global activities.

The Company recognizes its responsibility towards protection of the environment, and issues this statement as a commitment of both management and employees to minimizing the environmental impact of its operations.
