

Design & innovation.

The excellence of Reliance Medical's in-house studio, capable of producing first class artwork for packaging, literature and photography, underlines our belief that product innovation and good design are essential ingredients in maintaining our position at the forefront of our markets. The pride we take in our proactive approach demonstrates our determination to blaze a trail rather than follow in the tracks of others.

Quality assurance.

Reliance Medical's executive team can call on vast experience and a thorough knowledge and understanding of the European Commission's Medical Devices Directive and international pharmaceutical legislation, backed by an industry-leading Q & A panel. This, coupled with vigorous processes and procedures and an open relationship with our manufacturing partners, guarantees that the highest standards of quality assurance are always in our direct control. Our policy of continuous improvement has resulted in industry-leading levels of confidence in quality.

Exceptional products.

In the field of healthcare, we believe only the best products have a long-term future and we strive to ensure that in addition of our unique product features, the Reliance brand always stands for uncompromised quality. We prefer to justify the additional cost for quality than apologise for product shortcomings and whilst we might offer economy brand options, we never sell second best.
