Dependaplast Advanced 1,2,3 Blister Plasters

Designed and Manufactured by Reliance Medical, there is now a new, convenient, simple, safe and effective blister treatment. Dependaplast Advanced Blister Plasters are as easy to apply as the name suggests - 1,2,3. They work to protect the blister from puncturing, cushion and relieve the pain, stand up to everyday use, and utilising the latest hydro-colloid technology, actively enhance the natural healing process of the body. The plasters are supplied in a stylish and practical oval case, which is small and compact enough to fit into any bag.
