- Apply Easily in All Conditions

Dependaplast Advanced 1,2,3 Washproof Assorted Plasters

Featuring the unique 1,2,3 tab application, there has never been a simpler way to apply a plaster. The low-allergy adhesive makes them safe to use even on the most sensitive skin, and the clever use of soft, flexible, and opaque polyurethane, not only allows the skin to breathe, preventing maceration, but also looks very discreet when worn, compared to traditional plasters. Three sizes are available to take care of typical everyday cuts and grazes. The range is completely washproof, comfortable to wear, and maintains superb stickability. The sterile wound pad is low-adherent and highly absorbent. The individually wrapped plasters are supplied in a neat, stackable, compact box.
