

Traditional Heavyweight Fabric Range

Using traditional heavy elastic fabric offers extra cushioning and physical protection of wound sites. Ideal for outdoor use or applications requiring a more robust physical barrier. Traditional Zinc Oxide adhesive ensures that the plaster will stay firmly in place in the most demanding environments.

Dependaplast plasters offer a full and comprehensive range of the most popular shapes and sizes. Plasters are now neatly packed in a variety of boxes, allowing for clear, easy access, and because the boxes are smaller, save on storage too. Ideal for refilling first aid kits or to keep as backup supplies. All Dependaplast plasters are latex-free with a Rayon wound contact layer.

REF	SIZE	BOX QTY	MOQ
2212	2cm x 12cm	50	1
