relipore

Paediatric Adhesive Dressing

Printed dressing with fun design.
Highly absorbent.
Sterile, quick, and easy to apply.
For use on wounds, cuts, and lacerations.
Flexible and breathable fabric.

Ouch Paediatric Adhesive Dressing Pads

Low allergy adhesive dressing with cushioned protection and a highly absorbent central pad featuring Relipad low adherence technology. The stretch fabric is flexible, breathable and conforms well to the body. Once applied, the dressing remains securely in place yet easy to remove when ready. Designed for weeping or surgical wounds, cuts and lacerations, each dressing is sterile and individually wrapped.
