

Retro Style First Aid Kit

The vintage style tin may have a retro look, but contains the latest in modern medical products.

Our retro first aid tin includes 30 essential items for all those everyday first aid needs. This compact kit offers safety and style, and is suitable for family trips, home, car or camping. Very easy to keep clean and maintain, the tin is airtight, wipe-clean, and measures a handy 17cmH x 24.5cmW x 5.2cmD.

The inner compartment contains a transparent moulded insert, custom designed to hold all the individual content in place and make it easier to see if an item needs replacing. It's perfect for keeping everyday supplies such as plasters to hand.

We've designed it with style and practicality in mind to provide the ultimate in keeping your medical items tidy, whilst adding a contemporary and funky design that adds some fun and a personal touch to any home.
