

Practical Storage with Style and Security

Indoor Metal Wall Cabinets

Toughened durable
glass door.

Safe and visible
supplies.

Quick release
push-button.

Secure lock with keys.

Fixed shelf for
added storage.

Two sizes available.

A choice of two metal cabinets, constructed from a white powder coated metal, with a stone enameled finish and toughened glass door for durability. The quick release push-button allows quick access in an emergency, for extra security you can lock the cabinet with the keys provided.

A safe and secure storage for medical supplies and equipment, these cabinets allow Practitioners, Nurses, First Aiders and Responders to quickly see and identify smaller products that may be needed in an Emergency.

Secure vital equipment, provide rapid access, allow instant selection, maintain stock in dry dust-free conditions, and be ready for any emergency.
